# Enquiry for acquiring a three axis CNC vertical milling machine

Enquiry Number: IITK/ME/ML/2016-17/VMC

Enquiry date: 13-02-2017

Closing date: 27-02-2017 (5 pm)

Sealed quotations (in two separate envelops marked separately as "Technical Bid" and as 'Financial bid' are invited as per the specifications, and terms and conditions listed below.

Supply, installation and commissioning of a vertical CNC milling machine as per following specifications:

# **Specifications:**

| Sr. No.          | Technical description   | Specification                           |  |
|------------------|---|---|--|
| 1. Spindle       | ,   | ·                                       |  |
| 1a               | Spindle power   | 15 kW (const.)/18.5 (30 min.) KW (min.) |  |
| 1b               | Spindle Torque  | 102 Nm (min.)                           |  |
| 1c               | Spindle speed   | 15000 rpm (min.)                        |  |
| 1d               | Spindle taper   | HSK A-63                                |  |
| 1e               | Spindle bearing diameter  | 70 mm (min.)                            |  |
| 1f               | AC Variable Speed Spindle Motor (provide speed power characteristics) | Make: Fanuc                             |  |
| 2. Strokes and o |   |   |  |
| 2a               | Table Longitudinal Travel (X-Axis)                                    | 600 mm (min.)                           |  |
| 2b               | Table Cross Travel (Y-Axis)   | 510 mm (min.)                           |  |
| 2c               | Head Stock Travel (Z-Axis)  | 500 mm (min.)                           |  |
| 2d               | Spindle Nose Face to Table Top  | 175 - 675 mm                            |  |
| 2e               | Distance from Floor to Table  | 925 mm (min.)                           |  |
| 2f               | Spindle Centre – Column front Distance                                | 560 mm (min.)                           |  |
| 3. Table         |   |   |  |
| 3a               | Table size  | 1000 mm x 510 mm (min.)                 |  |
| 3b               | T – Slot (No./Size/Pitch)   | 5/18/100 mm (min.)                      |  |
| 3c               | Maximum Load on Table standard  | 500 kg (min.)                           |  |
| 4. Feed axes     |   |   |  |
| 4a               | Feed Motor Torques for X, Y & Z axes                                  | 20 / 20 / 36 Nm (min.)                  |  |
| 4b               | Rapid Traverse X/Y/Z  | 40 / 40 / 32 meter/minute (min.)        |  |
| 4c               | Feed rate   | 0 to 10,000 mm/minute (min.)            |  |
| 4d               | Guide ways for all Axes   | Linear Motion (Roller Type) (min.)      |  |
| 4e               | AC Servo drives for all Axis  | Make: Fanuc                             |  |
| 5. CNC control s | system  |   |  |
| 5a               | Control   | FANUC 0i-MF                             |  |
| 5b               | Display   | 8.4" LCD Display                        |  |
| 5c               | Spindle Speed Override  | 50% to 120% (in steps of 10%)           |  |
| 5d               | Feed Override   | 0% to 200%                              |  |
| 5e               | DNC Operation   | Ethernet / Pen drive                    |  |
| 5f               | Communication Port  | USB / RS232                             |  |

| er ISO 230 – 2 or As per VDI / DGQ 3441       |  |
|---|--|
| Positional accuracy for all axes              | ± 0.01 mm  |
| Repeatability for all axes                    | ± 0.005 mm   |
| ·   |  |
| All guide way protection with telescopic      | Standard   |
| cover from coolant seepage.                   |  |
| Spindle Taper Air Blow                        | Standard   |
| Rigid Tapping                                 | Standard   |
| Leakage Free full Machine Guard               | Standard   |
| Manual Pulse Generator                        | Standard   |
| Pneumatic pressure required                   | 5 kgf /cm2 (min.)  |
| Maintenance Tool Kit                          | Standard   |
| Water and Coolant proof machine lamp          | Standard   |
| Three tier indication lamp                    | Standard   |
| Standard work light                           | Standard   |
| Coolant tank and chip tray                    | Standard   |
| Chip disposal to the rear side of the machine | Standard   |
| through two chutes on the sides               |  |
| Refrigeration type Spindle Cooling            | Standard   |
| Electronic Hand Wheel (MPG) for all axis      | Standard   |
| Leveling pads for Machine                     | Standard   |
| Pneumatic supply required at Atmospheric Pr.  | 300 lmp (min.)   |
| Coolant Tank                                  | 300 liter (min.)   |
| Lubrication tank (useful quantity)            | 0.75 liter   |
| Panel Cooler (AC unit) for Electrical Cabinet | Standard   |
| Fail safe brake for Z-axis                    | Standard   |
| Flexible coupling for X, Y & Z axes           | Standard   |
| Total Machine Enclosure                       | Standard   |
| Ball screw diameters                          | 32 mm (min.)   |
| Ball screw stretching for X, Y & Z axes       | Standard   |
| Ball screw supports                           | Ideally: fixed – fixed, else: fixed -  |
|   | supported  |
| Flood coolant around the spindle              | Standard   |
| Coolant Gun                                   | Standard   |
| Tool life management                          | Standard   |
| Isolation transformer                         | Make: Consul. Rating: as required  |
| Voltage stabilizer                            | Make: Consul. Rating: as required  |
| Front auto door                               | Standard   |
| Manuals                                       | Standard   |
| Total machine weight                          | 7500 kg (max.)   |
|   | Repeatability for all axes  All guide way protection with telescopic cover from coolant seepage. # **Terms and Conditions:**

- Maximum education discount, if any should be offered
- Validity of quotation should be at least for 60 days
- The price quoted should be for delivery at Kanpur.

- Terms and conditions for the payment, including the banker's name of the principal and the account number
- Proprietary certificate, if relevant, should be provided.
- Delivery must be within 16 weeks from issuance of purchase order/indent
- The institute reserves the right of accepting and rejecting any quotation without assigning any reason.
- The indenter reserves the right to cancel the tender without being answerable.
- The Technical Bid should contain detailed technical specification of the product being offered and should not mention any price.
- The Financial Bid should include the detailed price quotation clearly including the cost of the equipment, taxes, service charges if any, shipping and handling charges.

Kindly submit the Technical and Financial bids in two separate sealed envelopes addressed to:
