Subject: Quotation for Non-IBR rated boiler

Dear Sir,

We are planning to purchase a Non-IBR rated boiler for education and research project with following specifications:

Steam Pressure:	typically 5.0 bars
Steam rate:	about 200 Kg/Hr
Steam condition:	saturated/slightly superheated
Fuel:	normally available diesel fuel only
Burner:	automatic regulation and control system

Please indicate, accessories/mountings, any additional accessories/mountings, like flow meter for steam/fuel/air etc.

We also would like to know that, what type of site preparation and installation will be needed for the commissioning of the boiler. Please send your quotation/budgetary offer for the non IBR boiler as per specification mentioned above on or before 27 August, 2012.

Thanking you,

Sameer Khandekar
